The ten documents, my role, and what Pat recommended

1. Names: you are right, and I should not have called them errors

Brand and trading names are not errors. The real point is narrower: parties, seals and filings must use the registered name of a company that exists. The revised documents now do that for five companies.

Name used	Registered name	Status
Noesis	Noesis AI Agent System Limited, 805939	Registered (the old "Noesis Limited" was a working title)
Asterial	Asterial Limited, 804907	Registered (the old "Asterial AI Limited" was not the registered name)
Zubelsala, SanCelvio	Zubelsala Limited 817481; SanCelvio Limited 817480	Registered
Velocity AI (trading name)	Mainly Velocity Limited, 804908	Registered; the old "Velocity AI Limited" was the trading name
Tairseach (trading name)	Tairseach Limited (trading as Tairseach)	Not incorporated per Shane's 4 Nov summary
Odin Labs	Odin Labs Limited	Not incorporated per the summary
Occasio, Fiducia, Glor, Sensai, Inneall, Fabrica, Tir AI, AI Accountancy, Kairos	None yet	Brand names of planned companies

What remains is a drafting decision for you, Pat and the solicitor: whether Documents 5 to 8 should keep a list of planned brand names in the "Permitted Group Subsidiaries" definition (Documents 9 and 10 do not). Shane has flagged this himself.

2. What the documents expect of you, against your 8 Oct brief

Brief task	What the revised documents do	Outstanding for you
1 Legal position	Define five live companies once each. Company Secretary is not named anywhere.	Roster and registers; who is Secretary (brief: you).
2 Share rights, founder control	A: 10 votes, 100 on s146 director removal, 75.5% floor, perpetual; B, C, F non-voting; Founder 3% secondary right in Asterial.	Challenge: Class C source and option pool size; fixed 1,000,000 base assumed; blanket Founder discretions.
3 Constitutions	Only Asterial and Noesis (Docs 3, 4). Others join by Section 45 Deed of Adherence.	Constitutions for the other companies; public filings still show percentages.
4 Shareholder work	Cash subscriptions at Step 2; Doc 6 Schedule 1 adherence deed blank.	Completion plan; who signs; dates all blank.
5 Board and decision rules	Per Shane's summary: Class A directors guaranteed a board majority and the Chairperson a casting vote; reserved matters in Doc 6 cl 4. No Chair named.	Who is Chair, quorum, conflicts. This is where your Chairman aim lands.
6 Records and compliance	s169 register, s231 and s238 declarations and approvals described.	Calendar and who prepares, checks, files (Pat's office).
7 Money across companies	Umbrella licence (Doc 8), 12-month royalty cap, IP assignment for 10 euro (Doc 7).	Rate card missing; Scenario B 0 or 1 euro; 10 euro against "1 or 10".
8 IP traceable	Chain-of-title and authorship warranties by Shane and Velocity (Doc 9).	Evidence behind the warranties; Velocity as assignor.
9 Safety, data, AI oversight	Only the widened Bad Leaver (AI ingestion, leaking).	Not covered by the ten documents; works with Tom.
10 Decision pack	This list.	Your Friday pack.

3. Pat's recommendations against the revised documents (not yet adopted)

Pat (28 Oct pack)	Revised documents	For Friday
Ownership 83% A, 17% B, fourteen B holders, family 15 points inside Shane's 83%	86% A; 8% family; 6% executives; pathway to 80% Shane floor; 3 executives only	Which structure governs?
Records before decisions: verify capital and title, constitutions, transfers, value, then awards; tax cleared (CAT, CGT, stamp duty) first	Shares first at 0.01 euro; IP for 10 euro; no external valuation; tax outcomes asserted	Pat says tax sequencing is unresolved; who tests it?
Independent review of your own award and appointment	Your award is in Docs 1, 2 and 6; independent review not shown	Agree who reviews, before signing.
Chair, quorum, ties, conflicts, reserved matters set; roles named	Class A majority and Chairperson casting vote (summary); no office-holders named	Name the Chair and board.
Roster and commitments record first	Five companies only; commitments not addressed	Roster; compiler; new date.

Legal work in priced phases, funding approved first; solicitor route	Silent	Route and cash source.
Pat as finance lead; Group Tax and Accounting Adviser sign-off (Doc 10)	Slot remains (Pat's practice may be sold)	Who signs if that changes.

4. Remaining differences I need Shane to resolve

- Scenario B: 0 euro still in Docs 1 and 3, 1 euro in 5, 6, 8, 9, 10. IP price: "1 or 10" (Doc 2) against 10 (Docs 7, 9, 10). R&D credit 35% (Doc 1) against 30%.
- Step order differs between Doc 1 and Docs 2 and 10; s238 approval at Step 1 in some, Step 3 in others.
- Percentages are still in the public constitutions (Docs 3 and 4), which the summary says were removed.
- Family shares labelled "Class F/B" though Asterial has no Class F; Doc 3 cites a non-existent Article 12.2; "Good Leaver" is used but not defined.
- All dates, countersigning officers, the Secretary and registered offices blank.

Keep for conversation, not writing: your own award (2% Class B: half vested, half on a 12-month reverse vest at 0.01 euro; up to +1% Class C at Year 2 and Year 3 on milestones verified by Shane; cap 4%; Bad Leaver at 0.01 euro on vested and unvested); no document appoints you director or Secretary; Docs 1 and 10 use you as witness while Doc 2 requires an independent one. Pat's pack says your terms need independent review.
