13	neil@barberbarberuk.co.uk	Barber Republic: funding stages and investor map	4 Nov	Check attachments
14	chairperson@mwcf.ie	MWCF governance documents: what I need to see first	4 Nov	Check first

Sent today and no longer a draft: the agreements, insurance and banking schedule and one-page banking summary to Shane (17:26).

DRAFT 1 OF 14

To: g.heffernan@ors.ie
Subject: Re: FRA Magna Drive - Completion Inspection Request
Saved: 9 Nov 2026

CHECK: UHL. Ready to send. Gerard is the ORS Fire Inspector Team Lead.

Hi Gerard,

Following up on my email of 3 November. I see you were back in the office on 6 November.

Could you let me know where the completion inspection for Magna Drive stands, whether the latest inspection has been carried out, and when we can expect the fire certificate? I need to update the company this week.

Thank you,

John

DRAFT 2 OF 14

To: david.geoghegan@unitedhardware.ie
Cc: nicola.hegartymcmillan@unitedhardware.ie
Subject: My November Invoice
Saved: 9 Nov 2026

CHECK: AHL. The invoice attachment does not show in the draft; check it is attached before sending.

Dave,

Please see attached my November invoice for payment, AHL Chairman fees for November 2026.

Thank you

John

DRAFT 3 OF 14

To: eamon@tasteireland.com.au; malachyh@gmail.com
Subject: Introduction: Malachy Harkin and Eamon Eastwood
Saved: 6 Nov 2026

CHECK: Ready to send. Confirm both addresses.

Hi Eamon, Hi Malachy,

I would like to introduce you to each other.

Malachy Harkin is working on the launch and distribution of an eSIM product, with a focus on Australia and the Southern Hemisphere.

Eamon Eastwood is at Taste in Australia, and knows that market well from his work there and through the Tangible network.

I think you will find a conversation worthwhile. I will leave it to the two of you to find a time. If it would help to have me on a first call, just say.

Best wishes,
John

DRAFT 4 OF 14

To: vincentleonard@salesprocessadvisors.ie
Subject: Re: LSOS and next steps
Saved: 6 Nov 2026

CHECK: Probably overtaken by your call on 11 Nov and Vinny's email of 12 Nov. Likely to discard.

Hi Vinny,

Thank you for the papers and for the time on our call. I have been through the LSOS material properly, and I am discussing with Shane how a working model between us could look.

I do not want to rush you into anything or send you half a view. Give me until the end of next week and I will come back with a clear idea of what we think works, and how we would start small with one client.

In the meantime, if there is a client you have in mind for a first conversation, tell me about them in general terms and we will see how it fits.

Best,
John

DRAFT 5 OF 14

To: (no address)
Subject: Midwestern Cancer Foundation: HSE property availability
Saved: 5 Nov 2026

CHECK: MWCF. To Joe Hoare (HSE); no address in the draft. His current role is unconfirmed.

Dear Joe,

I'm leading the property search for the Midwestern Cancer Foundation and wondered whether the HSE has any property available, or coming available, that might suit the Foundation's needs.

I'd be grateful for a short conversation at your convenience so I can explain what we're looking for.

Kind regards,

John Webb-O'Rourke

DRAFT 6 OF 14

To: (no address)
Subject: A quick update from me
Saved: 5 Nov 2026

CHECK: To Mark (surname not in the draft). Placeholders to fill in: headline, where it leads, issues.

Hi Mark,

I wanted to bring you up to date on what I'm doing, as it's been a while.

My main focus now is the Noesis Group, a group of AI ventures led by Shane McCarthy as its principal architect and owner, where I act as Strategic Advisor. [HEADLINE OF THE WORK, IN JOHN'S WORDS]

Where it's likely to lead: [JOHN TO ADD]

The issues I'm working through: [JOHN TO ADD]

I'd value a chat when you have time.

Best regards,

John

DRAFT 7 OF 14

To: (no address)
Subject: Midwestern Cancer Foundation: property search
Saved: 5 Nov 2026

CHECK: MWCF. To Gordon Kearney (Rooney Auctioneers); no address in the draft.

Hi Gordon,

I hope you're keeping well. I'm now leading the property search for the Midwestern Cancer Foundation and wanted to ask for your help, given your time as Chairman and your knowledge of the market.

Do you have anything on your books, or are you aware of anything, that might suit the Foundation? I'd be glad to talk through what we need whenever suits you.

Best regards,

John Webb-O'Rourke

DRAFT 8 OF 14

To: P.Dempsey@aglaw.com
Cc: L.Osborne@aglaw.com; r.shaughnessy@aglaw.com
Subject: AHL: proceedings received from Smyth's of Killucan's solicitors
Saved: 5 Nov 2026

CHECK: AHL. Needs work: the bracketed paragraph is blank; it says a copy is attached but nothing is; it says 'Smyth's' where you say 'Smith's'; the Civil Bill email names T L O Callaghan Limited as the client, so check it is the right company. Reminder set for Fri 13 Nov 9:00.

Dear Paul,

Further to my email of 27 October, we have now received proceedings from the solicitors acting for Smyth's of Killucan. I attach a copy.

To bring you fully up to date: [WHERE THINGS STAND AND WHY, IN JOHN'S WORDS]. As before, our brokers, Marsh, have notified Zurich Insurance.

Could you confirm that you will come on record for AHL, and let me know what you need from us and by when?

Kind regards,

John Webb-O'Rourke
Chairman
AHL Plc

DRAFT 9 OF 14

To: scarbery@bdo.ie
Cc: agevorgyan@bdo.ie
Subject: AHL: Ignatius Cahill share transfer, go-ahead and fee quote
Saved: 5 Nov 2026

CHECK: AHL. You now want Joanne Mallon (BDO) to put the transfer in place and answer her questions, so this draft needs re-addressing or replacing.

Hi Simon,

I hope you're well. Following up on the share transfer for Ignatius Cahill in Associated Hardware plc: we have now been given the go-ahead to proceed.

Could you let me know the steps and documents you'll need from us to complete the transfer, and send me your fee quote for the work? Once I have that, we can move quickly.

Many thanks,

John Webb-O'Rourke
Chairman
AHL Plc

DRAFT 10 OF 14

To: david.geoghegan@unitedhardware.ie
Cc: (none, although the text says Nicola is copied)
Subject: AHL: credit to Shannonside, October management accounts and directors' fees
Saved: 5 Nov 2026

CHECK: AHL. The [MATTER] needs filling in (what the credit settles). Nicola is not actually copied; add her. Check the figure and wording before sending.

Hi Dave,

I hope you're well. Three items on AHL, please.

1. Credit to Shannonside. Please arrange for the credit of approximately 75,000 euro to be given over to Shane Felle of Shannonside, in settlement of [MATTER]. Could you confirm the exact figure before it is applied, and let me know once it's done.

2. Management accounts. Please have the AHL management accounts prepared up to the end of October 2026.

3. Directors' fees. Please arrange for the directors' fees to be paid this month, November.

I've copied Nicola for her information. Thanks, Dave, and let me know if you need anything further from me.

Best regards,

John Webb-O'Rourke
Chairman
AHL Plc

DRAFT 11 OF 14

To: mairead@maireadodonnell.com
Subject: (no subject)
Saved: 5 Nov 2026

CHECK: Blank draft to Mairead O'Donnell (MWCF). Nothing written. Delete or write.

(empty)

DRAFT 12 OF 14

To: mccarthyshanemarketing@gmail.com
Subject: Noesis: what I need from you, in plain terms
Saved: 4 Nov 2026

CHECK: Long (about two pages). Likely superseded by the later rounds and the 12 Nov schedule. Review before deciding whether to send, shorten or delete.

Shane,

Thank you for the revised documents. Below is each outstanding point in one sentence, in plain language, with the reason it matters, so you can run it through your own tools. The company names and registration numbers in your documents are taken as correct.

THE GROUP

Group 1, the list of companies. I do not yet have one list showing every company in the group with its registered name, registration number, directors, secretary and shareholders, and without it I cannot confirm the legal starting point that everything else depends on.

Group 2, incorporations. You told me today you have asked Pat to incorporate all the companies in the structure, so I need the names, dates and registration numbers as each is done, because I cannot prepare a constitution or a filing for a company that does not yet exist.

Group 3, Odin Labs and Táirseach. Your email of 22 October said they were in incorporation but your summary of 4 November says they are not yet incorporated, so please tell me which is true today, since the documents treat them differently depending on the answer.

Group 4, who owns Noesis. The revised documents put you at 86 percent, family at 8 percent and three executive partners at 6 percent, whereas Pat's paper proposed 83 percent and 17 percent with fourteen holders, so we need one agreed structure before anything is signed because signing two different structures would create disputes later.

Group 5, the order and the tax. The documents issue shares first at one cent and then transfer the intellectual property second for a small sum without an outside valuation, but Pat has said the tax result of that order is not yet confirmed, so a qualified adviser should test it before signing because a wrong order can create an unexpected tax bill that cannot be undone.

Group 6, private figures in public filings. Your summary says private percentages were removed from the constitutions that will be filed publicly, but the Asterial and Noesis constitutions still show percentages, so either the text must change or we accept that those figures become public, which I assume you do not want.

Group 7, figures that differ between documents. The documents disagree on whether the price on a sale of Asterial is nothing or one euro, on whether the intellectual property is transferred for one euro or ten euro, and on whether the research tax credit is thirty or thirty-five percent, so each figure must be the same everywhere or an investor's lawyer will use the difference against us.

Group 8, the order of signing across documents. Document 1 places the licence and research agreements at the last step while Documents 2 and 10 place them earlier, so we need a single order of signing because the tax outcome depends on the order.

Group 9, planned company names. Documents 5 to 8 still list planned brand names inside the definition of future subsidiaries while Documents 9 and 10 do not, so please decide one approach for all ten and

describe those names as brand names where no registered company exists yet.

Group 10, constitutions for the other companies. Only Asterial and Noesis have a constitution among the ten documents, so Zubelsala, SanCelvio, Velocity and every future company need their own, and I suggest we agree one standard template first so each new company can be set up quickly and consistently.

Group 11, labels on the shares. Family shares are called Class F in some places and Class F or B in others although Asterial has no Class F, and the new Class C milestone and option shares have no stated source or size, so we need to fix the labels and say where those shares come from because shares that cannot be traced to an authorised pool may be invalid.

Group 12, leavers. The documents use the term good leaver without defining it and treat the same breach differently in the charter and the shareholders' agreement, so we need one definition and one consequence so that nobody is surprised if someone leaves.

Group 13, board, chair and rules. The documents give the founder's class a majority on the board and the chairperson a casting vote, yet nobody is named as director or chair and the rules on quorum, conflicts and reserved decisions are not written, so someone must be appointed and the rules agreed before the board can lawfully act.

Group 14, the company secretary. The company secretary is not named anywhere in the documents, so I need your written confirmation of who holds that role in each company so that the registers and filings each have a clear owner.

Group 15, dates, witnesses and signing. All dates, countersigning officers, addresses and the deeds of adherence are blank, and Document 2 asks for an independent witness while Documents 1 and 10 name a witness who may not be independent, so the signing arrangements need to be settled before any document is signed.

Group 16, proof of who owns what today. I need the share register, share certificates and proof of paid-up capital for Noesis and the other four live companies, together with the record of the earlier transfer between Pat and you, so I can confirm who owns what today before any new shares are issued.

Group 17, the record of commitments. Pat has asked for one record of every signed, unsigned and verbal commitment including property and Dubai, and I need you to supply the content so that nothing is treated as agreed unless it is evidenced and nothing is missed that could bind a group company.

Group 18, the legal route. We still need to choose the solicitor route, the intellectual property specialist and who pays, because documents of this size should be reviewed by a qualified solicitor before signing and Pat has asked that the cost source be approved first.

Group 19, Pat's sign-off. Document 10 has a slot for Pat as tax and accounting adviser, and because Pat may sell his practice we need to know who will sign that slot and who will keep the registers and make the filings for the group afterwards.

Group 20, evidence for the intellectual property. The chain-of-title deed has Velocity and you confirming authorship of more than fifteen thousand assets, and we need the evidence behind that confirmation because an investor's lawyer will ask to see it before relying on it.

Group 21, the licence rates. The licence between group companies needs a schedule of royalty rates that is still missing, and without it the money moving between companies cannot be reviewed or shown to be at fair market terms.

Group 22, safety and AI oversight. The ten documents cover safety, data protection and AI oversight only through the leaver clause, so I need Tom's findings and your decision on who owns that work.

Group 23, your notes of 30 October. I have no written record of what was decided on 30 October, who owns each action and by when, so I cannot align my plan to your decisions until I have it.

Group 24, the date of 23 November. To deliver everything by 23 November I need the items above this week, because every company that is not yet incorporated moves my dates back by however long incorporation and filing take.

EACH COMPANY

Noesis AI Agent System Limited. It is registered and its constitution is drafted, but I still need its register, its directors and its secretary confirmed before it can adopt the constitution, because a company cannot lawfully act without them.

Asterial Limited. It is registered and its constitution is drafted, but my records show its shares in your name rather than Noesis's, so the transfer and its tax need to be agreed before the intellectual property is assigned into it.

Zubelsala Limited. It is registered and acts as the safe copy of the group's technology in the licence, but it has no constitution among the ten documents and I do not know its shareholders, so I need both.

SanCelvio Limited. It is registered and is named in the licence and assignment, but it has no constitution among the ten documents and its shareholders are unknown, and I need to know whether Childen will sit inside it.

Mainly Velocity Limited, trading as Velocity AI. It is registered and assigns intellectual property in the documents, but I need its constitution, its shareholders and a list of its contracts, including the Barber Republic agreement under which the platform passes to the customer only on full payment.

Tairseach Limited, trading as Táirseach. Your documents say it is not yet incorporated, so I need its registration number, directors and shareholders as soon as Pat completes it, and until then it can only join by the deed of adherence.

Odin Labs Limited. Your documents say it is not yet incorporated and it is to be held by Asterial rather than Noesis, so I need its registration number and the order in which it is set up, because the research agreement cannot be signed until it exists.

Occasio. I understand it is the private language model company, which Pat's papers call the LLM Company, so please confirm that and give me its registered name and owner once it is incorporated.

Fiducia. It is a planned company with no registered entity yet, so I need its name, owner and incorporation date, and I will connect it to Tom's safety work.

Glór. It is a planned company with no registered entity yet, so I need its name, owner and incorporation date so its constitution and filings can be prepared.

Sensai. You and Pádraic agreed on 28 October that Pádraic would be in the company, whereas the group paper says Noesis holds it, so I need you to confirm who holds what in which class and when the shareholder paperwork will be signed before any intellectual property moves into it.

Inneall. It is a planned company with no registered entity yet, so I need its name, owner and incorporation

date.

Fabrica. It is a planned company with no registered entity yet, and its client builds are authorised in the documents, so I need its name, owner and incorporation date before it takes any client work.

Tír AI. It is a planned company with no registered entity yet, and the Seanchai project is to move into it from SanCelvio, so I need its name and owner and a record of that move with the tax checked.

AI Accountancy. It is a planned company with no registered entity yet, so I need its name, owner and incorporation date, and a decision on whether it needs a separate accounting adviser.

Kairos. It is drawn on the chart as part of the group and described as the majority shareholder in each side venture including Barber Republic, but my records show Barber Republic sitting under Barberrepublic.ai Limited and BarberBarber Limited, so I need the ownership chain confirmed.

Mac Enterprises. It is carved out of the group in the documents, but no legal form or number is given, so please supply them or describe it precisely so the carve-out is certain.

Meridian, Ambrion and Childen. They are not on the chart, and Meridian is not incorporated, so I need your confirmation of where each sits and the boundary between them and the group so that no group document or data is shared across it by mistake.

John

DRAFT 13 OF 14

To: neil@barberbarberuk.co.uk
Cc: johnny@barberbarber.com; scott@davenportsgroup.co.uk
Subject: Barber Republic: funding stages and investor map
Saved: 4 Nov 2026

CHECK: Barber Republic. Says the Wahoo Services investor map and a one-page funding stages table are attached; check the attachments before sending. Figures are planning scenarios.

Hi Neil,

Following my note this evening, I'm attaching the Wahoo Services map of UK investors and a one-page table of the funding stages, so the three of you have the same picture to work from. The table shows what each stage pays for and the evidence needed to move to the next one. The amounts are planning scenarios, not agreed terms.

Could you let me know how you'd like to take this forward?

Thanks,
John

DRAFT 14 OF 14

To: chairperson@mwcf.ie
Cc: jclawler@gmail.com
Subject: MWCF governance documents: what I need to see first
Saved: 4 Nov 2026

CHECK: MWCF. May be overtaken by the board meeting on 11 Nov and your reply due to John Lawler on Fri 13 Nov. Check first.

Hi John,

Thanks for sending the governance documents. Before I can give you a proper view on them, I need to see the documents they refer to, which aren't in the pack. Could you send me:

1. The Constitution. The drafts leave the clause numbers blank.
2. The Mission Statement agreed on 21 October.
3. The conflict of interest policy and declaration form, and the Code of Conduct, if they exist. The information pack marks the Code "to confirm".
4. The strategic plan.
5. The Terms of Reference and the Board resolution for the strategy and location group that met on 27 October and meets again tomorrow, if there is one.

The drafts also leave some figures blank, such as the spending limit above which a commitment needs the Board. If you have a figure in mind, let me know.

I'm asking Máiréad separately for the papers from the last Board meeting and the latest accounts. Once I've seen all of it I'll come back to you on what you circulated today.

Thanks,
John
