My roles, what is open after Friday, and what Shane and Pat have given

Source tags: BRIEF Shane's four-page work brief of 8 Oct. PACK Pat Carroll & Co papers dated 28 Oct. SHANE Shane's own papers. JOHN your account, not yet recorded anywhere. CUAN my view.

1. Your roles: four layers, kept apart

Layer	What it is	Status
Confirmed	Company secretary of Noesis, Asterial and SanCelvio, "as confirmed by Shane". Lead on corporate completion and governance: tasks 2, 3, 5, 7, 8, 9 and 10 in full; tasks 1, 4 and 6 (verified company facts, filings, registers) by oversight, with the work done by Pat's office or in time the group office.	BRIEF in writing
Proposed by Pat	Corporate coordinator in a joint legal scope. Master compiler of the commitments record, "or Tom". Board member (Shane, Pat, John, Tom). 2% non-voting B shareholder. Shane's legal adviser, a separate capacity.	PACK proposed, nothing completed
What you want	Chairman of the Board, growing into Group Chairman. Equity from 2% to 4% on performance. A full-time paid role.	JOHN stated at the meeting, no minute
Side interests	Meridian Intelligence (30%, 70/30 with Shane), outside Noesis; other ventures as they stand.	To be agreed

What I have in mind

- **Three hats, never worn at once on the same item.** (a) Chairman: oversight, agenda, challenge, reserved matters. (b) Company secretary and governance lead: registers, resolutions, filings calendar, "who does, who checks, who files". (c) Legal adviser to Shane: a separate engagement. A chairman who also compiles, files and checks his own work has no independent check. This is the single biggest defensibility point.
- **Grow into Chairman in steps.** Now: secretary and governance lead, with Pat's office filing. Next: take the Chair once chair, quorum, ties, conflicts and reserved matters are written (Pat's page 6 and 12 say they must be). Then hand day-to-day secretary duties to the group office, as you already said, and keep the Chair. Group Chairman follows when the group board exists.
- **The full-time paid role is a separate decision from the equity.** Pat's pack says no salary is approved (150,000 euro is an illustration only), a shareholding does not make an executive role, and pay is decided once roles, time and funding are known. It needs a written role, a time commitment, a board decision and independent review. Name it precisely: Group Chairman (executive) or Governance Director. Say what it replaces, and what happens to Meridian time.
- **Equity:** 4% is a new term (the pack fixes 2% and assumes no top-up). It needs measures, a source of shares and tax review. Pat's push for the same increase and for options, while proposed as finance lead and reviewing remuneration, is a conflict to be recorded for both of you.
- **Your tasks 2, 3, 5, 7, 8, 9, 10 are the substance.** Hold the line that you deliver verified facts, a recommendation and decisions for Shane, and that Cuan and the other agents prepare but do not sign.

2. What needs understanding after last Friday

There are no minutes from Shane or Pat, so nothing from 30 October is agreed on paper. Open, in order of importance:

1. **What was decided.** Who is compiler, chair, CEO, CTO and secretary; the solicitor route and IP specialist; the 83/17 instruction; who the recorder is. Pat's Part 5 outcomes table was to be completed in the room and is blank.
2. **Equity and roles.** Your account is 2% to 4% on performance, options for Pat, and your wish for the paid role. Who said what, on what measures, from which shares.
3. **Your overdue deliverables** (due 2 Nov): company status list with standard constitutions; one-line summaries of every agreement; the commitments compilation if you were chosen as compiler. Ask what Shane and Pat now expect and by when. Pat's review is due Wednesday 4 Nov and the Zoom on Friday 6 Nov.
4. **Roster and records.** Shane to give the full company listing with CRO numbers (Noesis AI Agent System Limited is CRO 805939); Pat to say what the register and the earlier Pat-to-Shane transfer show.
5. **Tom's security presentation** after you left: what was proposed, and who owns it.
6. **Side projects** (Meridian, Kairos, Mac Enterprises, Ambrion): in or out, ownership, boundaries, declared interests.
7. **Independent review of your own award and appointment.** Pat's pages require it. Agree who, and when, before anything is signed.
8. **Rhythm.** You expect Fridays until the structure is in place; Pat proposed Zoom on 6, 13 and 27 Nov and a face-to-face on 20 Nov. Times, organiser and recorder are blank.

3. What each has given and shared

From	Given or shared	Not yet given
Shane	The 8 Oct work brief (your ten tasks). Agenda email of 29 Oct (21:07 UTC). The 1 Nov paper on the group and its companies (eight pages) and the structure chart. The vision, mission and values worksheet. Nexus and the project management demo. Documents 6 to 10 for Pat in Drive.	Minutes and decisions. The full roster with CRO numbers and owners. Share register evidence. Your confirmation as Noesis secretary in the pack's chart. Commitments, real estate and Dubai. Access to the project system.
Pat	Founders meeting and planning pack (14 pages): proposed 83/17 structure, agenda, speaking notes, ten recommendations, Irish authority table, KPI sheet, outcomes table. Business plan working document (9 pages). Commitments, offers and marketing record (5 pages). IP solicitor scope, cost and funding (3 pages). Consolidated cash flow template. The "Shane decisions list" and "Recommendations" pages. Business card and contact details.	Minutes. The 4 Nov review points. The existing-company listing, which Pat says is missing from the material available. The 11 PM items. The specialist's name and any solicitor quote.

My recommendation for Friday. Ask for three things in writing, in this order: (1) a decision record of 30 October with one owner and date per item; (2) your appointments confirmed (secretary of the three companies, board seat); (3) the board rules (chair, quorum, ties, conflicts, reserved matters) drafted before anyone is named Chair. Take your role, the Chairman aim, the paid role and the equity as a conversation with Shane, then have the outcome recorded as a board decision. Do not put your shareholding, pay or fees in writing to Shane first.

Cuan. Drafted from the founders pack and John's account. No fabricated figures; unverified items are marked as such.
