Where my work stands against 23 November, and what is holding it up

1. What you have given me (thank you)

Revised Documents 1 to 10 and the "Draft 2 Summary of 4 November" are in the shared Drive folder (files dated 3 Nov 23:22 to 4 Nov 17:22). I will review them as tasks 2, 3 and 8. Your summary says only five companies are live (Noesis 805939, Asterial 804907, Zubelsala 817481, SanCelvio 817480, Mainly Velocity 804908), and that Odin Labs and Táirseach are not incorporated: the seal blocks for them were removed and they join later by a Section 45 Deed of Adherence.

2. What is holding me up

#	Held up on	Why it stops my work	What I need
1	Which companies exist and which Pat is to incorporate	Your 22 Oct email said Odin Labs and Táirseach were "in incorporation"; the 4 Nov summary says they are not. Nine other companies on your 1 Nov chart have no number. Tasks 1, 3 and 6 (company summary, constitutions, filing calendar) cannot be finished for a company that does not exist.	A one-line status per company, and the list you have asked Pat to incorporate, with names and dates.
2	Pat's update	You were to speak to Pat today and come back to me on the incorporations; I have not had it.	That update, or Pat's direct reply.
3	Registers and records	I cannot verify the share position, directors and secretary for 805939 and the other four without the registers and the earlier transfer record.	Registers and share certificates, or Pat to send them.
4	Points from my 22 Oct note not shown in the summary	Constitutions for the other companies; the rate card in Document 8; the secretary arrangement; printed dates in Documents 5 to 10. Your summary covers the names, the order of steps, the renumbering and the Odin and Táirseach seal blocks.	Which of these you are doing, and by when.
5	Your own flag in the summary	Documents 5 to 8 still list planned company names in the "Permitted Group Subsidiaries" definition; Documents 9 and 10 do not.	Your decision on one approach for all ten.
6	Notes of 30 October	I have no record of the decisions, roles or owners agreed, so I cannot align my plan to them.	Your notes.

3. Working back from 23 November

- **By Fri 6 Nov (Friday meeting):** items 1 to 3 and 6 answered; I bring the company summary v2.
- **Mon 9 to Fri 13 Nov:** my review of the revised Documents 1 to 10 and my list of decisions you must make before signing (task 2).
- **Mon 16 to Fri 20 Nov:** constitutions and the 90-day filing calendar for the companies that exist; board and decision rules (task 5); money-flow check (task 7).
- **Mon 23 Nov:** decision pack (task 10). **Dates for any company not yet incorporated will slip by however long incorporation and filings take.**

I am not stopped on the documents. I am stopped on knowing which companies exist and what Pat has been asked to do.
