Verified Company Summary

Purpose. One summary of what exists, what is only intended, and what blocks decisions, with proposed changes shown separately. Prepared by Cuan from Shane's and Pat's papers and Gmail. **No entry has yet been checked against the CRO register.** The next step is John's check.

Evidence key. STATED stated by Shane in writing; CRO numbers and names accepted as given (standing instruction) but not checked. REPORTED stated by Pat or John without a document seen. UNVERIFIED no evidence on file. Nothing here is marked VERIFIED until John has seen the CRO record.

1. The companies as they stand

#	Company	Role (Shane, 1 Nov)	CRO and status	Directors, secretary, shareholders	Evidence
1	Noesis AI Agent System Limited (working title Noesis Limited)	Holding company	805939. Registered.	Shane 100% of issued shares, reported by Pat; register and capital evidence to be checked. Directors and secretary: not on file. Pat's chart shows secretary "[agree]"; the 8 Oct brief says John.	STATED REPORTED
2	Asterial Limited	Home of ODIN, estate of IP	804907. Registered.	John is secretary (earlier records). Shares recorded in Shane's name; intended to be held by Noesis.	STATED
3	Zubelsala Limited	Continuity custodian and vault	817481. Registered.	John likely secretary (B10 signed 24 Sept per earlier note). Shareholders not on file.	STATED
4	SanCelvio Limited	Social good arm	817480. Registered.	As Zubelsala. Childen intended home (28 Sept), not on 1 Nov paper.	STATED
5	Mainly Velocity Limited (Velocity AI)	Strategic intelligence, training, building	804908. Registered.	Not on file. Invoices Barber Republic build and UHL training.	STATED
6	Tairseach Limited (trading as Tairseach)	Property intelligence	"Currently in incorporation" (22 Oct). No CRO number.	Not on file. Registered name fixed on incorporation.	STATED
7	Odin Labs Limited	R&D arm of Asterial	"Currently in incorporation" (22 Oct); Pat's pack of 28 Oct says "proposed, confirm name availability". Conflict.	Intended held by Asterial.	STATED conflict
8 to 16	Occasio, Fiducia, Glór, Sensai, Inneall, Fabrica, Tír AI, AI Accountancy, Kairos	As on 1 Nov chart	No CRO number or incorporation evidence on file.	Sensai: Shane and Pádraic's sheet of 28 Oct puts Pádraic "in the company". Occasio is probably Pat's "LLM Company" (Cuan reading, to confirm). Kairos holds Shane's ventures incl. Barber Republic, which John's record shows as Barberrepublic.ai Ltd (Johnny Shanahan).	UNVERIFIED
n/a	Mac Enterprises	Shane's own, outside the group	Not on file.	Outside the group.	STATED

Outside the group by Shane's and Pat's papers: Equitas Media Limited (EQM001) and Grassroots Gazette. **Not on the 1 Nov chart, status to settle:** Ambrion AI, Childen, Meridian Intelligence (not incorporated; 70/30 with Shane intended).

2. Proposed changes, shown separately (nothing completed or filed)

- **Ownership:** Shane 83% voting A shares; fourteen non-voting B holders for 17% (eleven at 1%; Pat, John and Tom at 2% each). The 15 points intended for Shane's family come out of Shane's 83%. C employee and investor shares to follow. PACK
- **Group transfers:** each company held by Noesis; Odin Labs held by Asterial; subsidiary share transfers need valuation, CAT, CGT and stamp duty review and a documented sequence.

- **New incorporations:** Tairseach and Odin Labs under way; Pat's "LLM Company" and "R&D Company" are working names; nine inactive cash-flow slots are template capacity, not evidence of nine companies.
- **Board and offices:** proposed board of Shane, Pat, John and Tom; Chair, CEO, CTO and secretary unassigned; none appointed or filed.
- **Documents 1 to 10:** corrections pending (section 4).

3. Gaps blocking decisions

1. No CRO check yet of any company: name, number, status, directors, secretary, shareholders, charges, filing position.
2. Share register, certificates and paid-up capital evidence for 805939, and the earlier Pat-to-Shane transfer (Pat's pack asks who reconciles).
3. Which companies Shane has asked Pat to incorporate, and which are done. No instruction to Pat is on file; Shane's 22 Oct email says Tairseach and Odin Labs are in incorporation without saying who is acting.
4. Directors and secretaries of each company, and one consistent secretary arrangement for new companies.
5. Nine companies with no incorporation evidence; Sensai ownership (Noesis or Pádraic); Kairos against Barber Republic's recorded owner.
6. Pat's possible sale of the practice affects who holds the registers and acts as filing agent (to settle with Shane first).

4. The ten documents: corrections outstanding from John's 22 Oct note to Shane (status of any amendment unknown)

- Names in Documents 1 to 4 to match the registered names (Noesis AI Agent System Limited, Asterial Limited, Mainly Velocity Limited); Document 6 is correct.
- Printed 22 October 2026 dates removed from Documents 5 to 10; each dated only when signed.
- Document 2 errors (Document 9 mislabelled as the IP assignment; Document 7 Parts A and B placement; "seven constitutions" against two in the pack).
- Order of steps: Shane's email (cash subscriptions first) against Documents 2, 4, 6 and 10 (minority and family subscriptions after the IP assignment); Document 7 clause 2.1.
- Constitutions for the other companies; the missing rate card (Document 8 clause 1.4); the Tairseach name; the secretary question; the Group Tax and Accounting Adviser sign-off slot (Document 10, page 3), which Pat's possible sale puts in question.

5. Next steps for John

(1) Check each registered company against the CRO register and mark each line VERIFIED or corrected. (2) Take sections 3 and 4 to Shane in tomorrow's conversation. (3) Give Pat's office the list of companies to check and file. (4) Re-issue this summary as v2 for Shane once the CRO check is done.
