My actions: interim chairman and governance and legal lead, Noesis group

Two hats, kept separate. Chairman acts at board level (what the board decides and sees). Governance and legal lead does the work in Shane's 8 Oct brief (tasks 1 to 10, due 23 Nov), with Pat's office filing. Cuan's suggestions for your review; not legal advice.

A. AS INTERIM CHAIRMAN

#	Action	What it means now	Next step
1	**Authority in writing**	Board resolution naming you interim chairman, scope and length; you chair and challenge, you do not take executive or commercial decisions. Your paid role, equity and terms are conversation with Shane, with independent review (Pat's practice requires it).	Ask Pat to table it with the incorporations (Tue 10 Nov).
2	**Run the board properly from day one**	Directors, chairperson, secretary named. Quorum, casting vote (Class A majority, Chair casting vote per Shane's summary), reserved matters (Doc 6 cl.4), conflicts register, minutes, one decision record (what, who, date). No commercial or technical commitment without the board and Shane's alignment.	First meeting after Tue 10 Nov; adopt the rules you draft (task 5).
3	**Control what investors see**	Asterial raise (20m to 22.5m) negotiated by Diarmuid with Vashid. Nothing outward until: structure signed, one set of numbers, option-pool dilution decided (carved from Noesis 85% or pro rata), data room agreed. Diarmuid holds 10% and negotiates: his interest declared.	Ask Shane to decide the pool; ask who sees terms before anything is signed.
4	**Conflicts**	Declare Meridian (outside the group), Velocity, Barber Republic, UHL, AHL; side-projects protocol (Meridian, Ambrion, Kairos, Mac Enterprises). Step back where decisions touch you, Pat or Diarmuid.	Protocol with Shane; written declaration at first meeting.

B. AS GOVERNANCE AND LEGAL LEAD (Shane's brief, tasks 1 to 10, due Mon 23 Nov)

#	Task	Where it stands (9 Nov)	Next step
1	Verified company position	Five registered per Shane (805939, 804907, 804908, 817480, 817481, not CRO-checked); Tairseach and ODIN Labs in incorporation; rest names only. Unincorporated names in conflict: Shane's replacements due today.	One roster (names, CRO numbers, officers, shareholders); you check the CRO.
2	Share rights, founder control	Two structures: documents 86/8/6; Pat 83/17 (14 B holders). Asterial 85/5/10 (Diarmuid non-voting B).	Settle one cap table with Shane and Pat.
3	Constitutions	Only Docs 3 and 4 exist; none for Zubelsala, SanCelvio, Velocity or new companies.	Template, then per company; solicitor review.
4	Signing through	Tue 10 Nov: incorporations, business names, Asterial bank account only. Docs 1 and 3 (8 Nov) missing; tax route untested; dates blank. Set not execution-ready.	Dated completion plan; sign nothing blank.
5	Board and decision rules	Not drafted: needs directors, chair, secretary named (item A1, A2).	Draft now, adopt after appointments.
6	Records and deadlines	No 90-day calendar. CRO: directors 14 days, resolutions 15, allotments 30.	Agree with Pat: who prepares, checks, files.
7	Money across companies	IP price 1 or 10 euro bracketed; rate card missing; licences untested.	Review before any payment or licence.
8	IP traceable	Chain-of-title evidence for 15,000+ assets not on file.	Evidence file from Shane (Doc 9).
9	Safety, data, AI oversight	Tom's findings not seen.	Ask Tom; link to Fiducia.
10	One decision pack for Shane	Fix list ready (Noesis_Fix_List) pending your review; open decisions listed.	Pack with recommendations by 23 Nov.

Keep the capacities separate: secretary (Noesis, Asterial, SanCelvio: confirm in writing), governance lead, Shane's adviser, interim chairman, and a director of any company in your own interest. Where you review terms that affect you (awards in Docs 1, 2, 6; your paid role), someone independent reviews.

This week: (1) Tue 10 Nov: incorporation, names and bank only, with final names; (2) ask for the one roster and the one cap table; (3) Shane decides pool dilution; (4) Pat tables your appointment. Target Mon 23 Nov.
