DRAFT FOR JOHN'S REVIEW, 3 NOVEMBER 2026. NOT SENT. PREPARED IN RESPONSE TO SHANE'S WHATSAPP OF 3 NOV, 20:24.

What is mine, or suggested to be mine, and where clarity is needed

Shane's instruction: focus on what is John's, or suggested to be John's, from what was agreed and from Pat's papers; where further clarity or exploration is needed, note it. Shane has said he will send his notes later, so "what was agreed" is not yet on record and nothing below is treated as agreed. Tags: BRIEF Shane's 8 Oct work brief. PACK Pat's papers dated 28 Oct. PENDING awaiting Shane's notes.

1. What is mine

Area	What it is	Source
Company secretary	Noesis, Asterial and SanCelvio: registers, decision record, filing calendar, verified company facts.	BRIEF PACK
Governance and legal compliance lead	Tasks 2, 3, 5, 7, 8, 9 and 10 in full. Tasks 1, 4 and 6 by oversight with Pat's office. AI prepares, John challenges the substance, John brings Shane a recommendation.	BRIEF
Commitments record	Proposed master compiler (John or Tom), with Shane confirming facts and Pat reviewing. Includes the company status list, standard constitutions and a one-sentence summary of every signed, unsigned or verbal agreement.	PACK PENDING
Corporate coordination of the legal work	Proposed corporate coordinator beside an IP specialist, under a priced, phased scope. Subsidiary constitutions, transfer terms and the transaction-date requirements settled with the legal lead.	PACK PENDING
Board	Proposed board member. Chair, quorum, ties, conflicts and reserved matters to be written and approved.	PACK PENDING
Weekly critical actions	Secretary with the finance lead owns the KPI for overdue governance, IP, security and continuity actions.	PACK

2. Where clarity or exploration is needed

1. **What was agreed on 30 October.** Decisions, owners and dates. Pat's outcomes table (eleven outcomes) was to be completed in the room and is blank in the pack. Shane's notes will settle this.
2. **Compiler.** John or Tom. One person owns the master record, and the 2 Nov date has passed. Needs a new date.
3. **Noesis company secretary.** The brief confirms John. Pat's chart shows the role open, "[agree]". Confirm one answer for Noesis, and for Asterial and SanCelvio.
4. **Filings split with Pat's office.** Who does, who checks, who files, for tasks 1, 4 and 6 and for CRO filings (director changes 14 days, resolutions 15 days, allotments 30 days).
5. **Roster and records.** The full company listing with CRO numbers and owners, which companies are in or out, and the share register evidence for CRO 805939. Pat says the listing is missing from the material available.
6. **Legal route and capacities.** Who leads, the IP specialist's name, and how John's different capacities (secretary, coordinator, Shane's legal adviser) are kept separate, with the independent review route Pat's pack requires.
7. **Board rules and chair.** Who chairs, quorum, ties, conflicts and reserved matters, before appointments are made.
8. **Time and availability.** Pat's pack asks for a time commitment for every role. To be set out for each role John holds.
9. **Tom's security presentation.** What was proposed, who owns it, and how it links to continuity and the critical-actions measure.
10. **Side projects.** Meridian is not incorporated; Ambrion, Kairos and Mac Enterprises need a stated position (in or out, owner, boundary).
11. **Dates.** Pat's review on 4 Nov, the Zoom on 6 Nov, then 13, 20 and 27 Nov. Times, organiser and recorder still blank.

Cuan. Source-tagged; no fabricated claims. John's shareholding, pay and fees are deliberately not in this paper.
